

# NESCOFI@BTF

2011 - 2013

## 2012 Mid-Year Meeting & International Review Panel Meeting

INFN-LNF, 16 May 2012

### *Agenda*

- 9:00 – 9:30     **2011 Short Report** (R. Bedogni)
- 9:30 – 10:00    **Activity done in 2012**  
                  - New detectors R&D and testing;  
                  - 2012 Strategy;
- 10:00 – 10:30   **Simulations of SP<sup>2</sup> and CYSP** (J.M. Gomez-Ros)  
                  - SP<sup>2</sup> final design;  
                  - CYSP simulation campaign;
- 10:30            **B r e a k**
- 11:00 – 12:00   **New detectors & DAQ systems** (A. Pola, D. Bortot)  
                  - Experiment at NPL (March 2012);  
                  - Thermal drift suppression in the current probe;  
                  - Performance of pulse detector;  
                  - Multidetector acquisition;  
                  - NESCOFI-developed multichannel boards;
- 12:00 – 12:40   **The remaining part of the year 2012 - Discussion**  
                  - Experiment at TSL (June 2012)  
                  - Need for further tests  
                  - Detector parallelization & acquisition
- 13:00            **L u n c h**
- 14:00 – 15:00    **Discussion (cont'd)**
- 15:00 – 15:20    **Report of the International Review Panel**
