

# NESCOFI@BTF

2011 - 2013

## 2013 Launch meeting

INFN-LNF, 29 January 2013

### Agenda

- 10:00 – 10:30 **Short report of 2012 activity**  
(R. Bedogni)
- 10:45 – 11:15 **Experiments performed in 2012**  
*Charaterization of the active detectors*  
*In-house fabrication and reproducibility*  
*Dedicated acquisition boards: lesson learnt*  
*2013 boards production*  
(A. Pola, D. Bortot)
- 11:15 – 11:40 **B r e a k**
- 11:40 – 12:10 **State of art of computational activity**  
*Experiment Vs simulation: how good? Need to improve?*  
*From activation foils to active detectors: calculation aspects*  
*Final design of CYSP*  
(J.M. Gomez-Ros)
- 12:10 – 12:40 **Budget for 2013 and strategy proposal - Discussion**  
*50% budget cut....One or two instruments?*  
*Final calibration campaigns*  
*Need for a detector processing facility*  
*Strategic collaborations and co-funding partners*
- 13:00 **L u n c h**
- 14:00 – 15:00 **Discussion – cont'd**
- 15:00 – 15:30 **What's next?**  
*“Marketing” our products in industry, medicine and research*  
*Future activity: An R&D in portable neutron sources? Neutron beam-lines in the Frascati area?*
- 15:30 **Closure of the meeting**
