

4th International Workshop on Nucleon Structure at Large Bjorken X

Laboratori Nazionali di Frascati
November 17-21, 2014

Hi

2014

The specific topics to be addressed at the workshop will include:

- * Parton distribution functions at large X
- * Longitudinal and transverse spin structure
- * Transverse momentum distributions
- * Generalised parton distributions and exclusive processes
- * Nuclear medium modifications of parton distributions
- * Quark-hadron duality and higher twists
- * Lattice QCD and low-energy models
- * Implications for new physics searches and related fields

International Advisory Committee

Alberto Accardi, Hampton U. & JLab
Sergey Alekhin, IHEP & DESY-Zeuthen
Stan Brodsky, SLAC
Donald Day, U. Virginia
Rolf Ent, JLab
Shunzo Kumano, KEK
Naomi Makins, U. Illinois
Robert McKeown, JLab
Jorge Morfin, FNAL
Valeria Muccifora, INFN-LNF
Anthony Thomas, U. Adelaide
Werner Vogelsang, Tuebingen U.

Organizing Committee

Alessandra Fantoni (co-chair), INFN-LNF
Cynthia Keppel, JLab
Simonetta Liuti, U. Virginia
Simona Malace (co-chair), JLab
Silvia Pisano, INFN-LNF

Secretary

Donatella Pierluigi, INFN-LNF
