

Excellence in Detectors and Instrumentation Technologies

EDIT 2015

INFN, Frascati, Italy - October 20-29, 2015

EDIT - Excellence in Detectors and Instrumentation Technologies - is an International School devoted to young researchers, in their graduate studies or in their first years as postdocs, seeking to acquire a deeper knowledge on the major aspects of detectors and instrumentation technologies.

The scientific program foresees in-depth tours of working facilities and a series of plenary lectures and hands-on laboratory courses on:

- Accelerator physics
- Gaseous tracking detectors
- Detectors for calorimetry
- Solid-state detectors
- Synchrotron radiation applications
- Electronics for particle detectors
- DAQ and trigger systems
- Space research

International Advisory Committee

Sergio Bertolucci	CERN
Ariella Cattai	CERN
Silvia Dalla Torre	INFN
Francesco Forti	INFN
David Mac Farlane	SLAC
Hugh Montgomery	JLab
Eugenio Nappi	INFN
Stefano Ragazzi	INFN
Luigi Rolandi	CERN
Fabio Sauli	CERN
Achille Stocchi	LAL
Yifang Wang	IHEP
Marc Winter	IPHC

Local Organizing Committee

Antonella Balerna, Giovanni Bencivenni,
Fabio Bossi, Alessandro Boni,
Enrica Chiadroni, Catalina Curceanu,
Pasquale Di Nezza, Umberto Dosselli,
Giulietto Felici, Alessandro Gallo,
Paola Gianotti (**school director**),
Giovanni Mazzitelli, Stefano Miscetti,
Fabrizio Murtas, Eugenio Nappi,
Alessandro Paoloni, Ivano Sarra,
Paolo Valente

School Secretariat
Maria Cristina D'Amato
Daniela Ferrucci

Web Master
Sara Reda
