

XII INTERNATIONAL CONFERENCE ON HADRON SPECTROSCOPY – HADRON 07
8-13 October 2007, INFN Laboratori Nazionali di Frascati, Frascati (Rome) - Italy

The aim of the Hadron International Conference is to review the status and progress in hadron spectroscopy and the related aspects of hadron dynamics. This series of conferences started in 1985 and they take place every two years. Hadron07 is being organized by the INFN Laboratori Nazionali di Frascati and will be held from October 8th to 13th 2007.

Main topics

spectroscopy of light and heavy quark mesons
baryons
quarkonia
glueballs, hybrids, and multiquarks
phenomenological models
effective lagrangians
QCD on the lattice
hadrons in matter
heavy ion collisions
future facilities
