AIACE Physics Papers

- N.Bianchi, E. De Sanctis, P. Rossi et al. JLAB-ER93-017, 1993
  Study of γd -> p n and γ d->p Δ^0 reactions for small momentum transfers

- A.S.Iljinov et al., Nucl. Phys. A 616 (1997) 575
  Extension of the intranuclear cascade model for photonuclear reactions up to 10 GeV

- M. Mirazita et al., Phys. Lett. B 407 (1997) 225
  Total hadronic photoabsorption on carbon and lead in the shadowing threshold region

- M. Ripani et al., Nucl. Phys., A623 (1997) 110c
  Two pion decay of electroproduced light quark baryon resonances.

- G. Ricco, M. Anghinolfi, M. Ripani, S. Simula and M. Taiuti, Phys. Rev. C 57 (1998) 365
  Bloom-Gilman duality of inelastic structure functions in nucleon and nuclei.

- A. Deppman, N.Bianchi, E. De Sanctis, M.Mirazita, V. Muccifora and P. Rossi, Nuovo Cim., 111A (1998) 1299
  Determination of the forward Compton scattering amplitude for C and Pb.

- G.Ricco, S. Simula and M. Battaglieri, Nucl. Phys. B555 (1999) 306
  Power corrections in the logitudinal and transverse functions of proton and deuteron.

- V. Muccifora et al., Phys. Rev. C 60 (1999) 064616
  Photoabsorption on nuclei in the energy range 0.5-2.6 GeV.

- N.Bianchi, E. De Sanctis, M.Mirazita and V.Muccifora, Phys. Rev. C (1999) 064617
  Shadowing in nuclear photoabsorption above the resonance region.

- M. Anghinolfi et al., Phys of At. Nucl. 62 (1999) 1552
  Investigation of N* structure in exclusive two pion production on proton by real and virtual photons

- E.N. Golovach et al., Bull. Moscow State Univ. Physics and Astronomy
  ISI and FSI in $\pi^- \Delta^{++}$ production on proton by real and virtual photons

- V.I. Mokeev et al., preprint INP MSU 99-36/594
  A phenomenological description of two pion production on proton by photons in the N* excitation region

- K. Aulenbacher,
  CERN-NuPECC Report 99-10, (1999)

- N. Bianchi,
  proc. of Winter Meeting on Nuclear Physics, Bormio, 1999

- A.M. Kotzinian, Nucl. Phys. A666&667, 290 (2000)

- M. Ripani, Phys of At. Nucl., A63, 76, (2000)

- The CLAS Collaboration, E. Anciant, et al, Phys. Rev. Lett., 85, 4682 (2000)
  Photoproduction of phi(1020) mesons on proton at large momentum transfers.

- The CLAS Collaboration, R. Thompson et al, Physical Review Lett. 86, 1702 (2001).
  The ep -> e'pη reaction at and above the S_{11}(1535) baryon resonance

- V. Yu Grishina et al, , submitted to Phys. Rev. C on 1/12/2001
  LANL-preprint hep-ph/0101129
  Deuteron photodisntegration within the Quark-Gluon Strings Model and QCD motivated nonlinear Regge trajectories

- The CLAS Collaboration, K. Lukashin et al, Physical Review C 63, 065205-1 (2001).
  Exclusive electroproduction of ϕ mesons at 4.2 GeV

- The CLAS Collaboration, J.W. Price et al, to be submitted to Phys. Rev. Lett.
  Photoproduction of the Ξ^-(1321) hyperon

- The CLAS Collaboration, S. Barrow et al., accepted 6-22-01 by Physical Review C
  LANL preprint: hep-ex/0105029
  Electroproduction of the Λ (1520) Hyperon

- The CLAS Collaboration, M. Battaglieri et al., submitted 7-11-01 to Physical Review Letters
  LANL preprint: hep-ex/0107028
  Photoproduction of ρ^0 Meson on the Proton at Large Momentum Transfer

- The CLAS Collaboration, S. Stepanyan, submitted 7-17-01 to Physical Review Letters
  LANL preprint: hep-ex/0107043
  First observation of exclusive DVCS in polarized electron beam asymmetry measurements

AIACE Technical Papers

- M.Taiuti, M. Anghinolfi et. al, Nucl. Inst. & Meth. A357, 344-349 (1995)
  Performances of the optical readout system for the large angle Electromagnetic shower calorimeter for CLAS

- ***The Large Angle Electromagnetic Shower Calorimeter for CLAS: module design and optimization of performances***, INFN-BE-95-03

- ***Monte Carlo code for simulation of the Large Angle Electromagnetic Shower Calorimeter for CLAS Detector***, INFN-BE-95-02

- P. Rossi, E. Polli et al., Nucl. Inst & Meth. A 381, 32-38 (1996)
  Performance of the new plastic scintillator NE110A for the CLAS large angle calorimeter.

- M. Taiuti, P. Rossi et al., Nucl. Inst & Meth. A 370, 429-434 (1996)
  Measurement of the response on long plastic scintillators bars for the large angle electromagnetic shower calorimeter for CLAS.

- M. Ripani et al., Nucl. Inst. & Meth. A406, 403-410 (1998)
  Choice and test of the photomultipliers for the Large Angle Electromagnetic Shower Calorimeter for the CLAS Detector at CEBAF.

- M. Anghinolfi, M. Taiuti et al., Nucl. Inst. & Meth. A447, 424-431 (1998)
  Response to cosmic rays of the large angle electromagnetic shower calorimeter of the CLAS detector.

- P. Rossi et al., (in preparation)
  The large angle electromagnetic shower calorimeter of the CLAS detector

- The CLAS Collaboration (in preparation)
  The CLAS detector

AIACE Talks and Conferences

- V. Muccifora,
  Photoabsorption on bound nucleons in the resonance region,
  Workshop on N* physics and non perturbative QCD, Trento, Italy, May 18-29, 1998.

- V. Mokeev et al.,
  Description of two pion production on proton by real and virtual photons in N* region,
  Workshop on N* physics and non perturbative QCD, Trento, Italy, May 18-29, 1998.

- M. Ripani,
  Baryon resonances in the double pion channel at Jefferson Lab (CEBAF): experimental and physics status and prespectives,
  Workshop on N* physics and non perturbative QCD, Trento, Italy, May 18-29, 1998.

- G.Ricco and S.Simula,
  Longitudinal and transverse structure functions of proton and deuteron at large x,
  International Workshop on JLab: Physics and Instrumentation with 6-12 GeV beams,
  Jefferson Lab (Newport News, USA), June, 15-18, 1998.

- G. Ricco, M. Anghinolfi, M. Ripani, M. Taiuti and S. Simula,
  Bloom-Gilman duality of the nucleon structure function and the elastic peak contribution, XVI European Conference on Few-Body Problems in Physics, Autrans, France, July, 1998.

- V. Muccifora and M. Mirazita,
  Total hadronic photoabsorption on nuclei in the 0.5-2.6 GeV energy range,
  International Nuclear Physics Conference, Paris, France, August 24-29, 1998.

- V. Muccifora and M. Mirazita,
  Total hadronic photoabsorption on nuclei,
  International Conference on Meson and Light Nuclei, Prague-Pruhonice, Aug. 31-Sept. 4, 1998.

- M. Ripani,
  Baryon resonances in the two pion electroproducion with CLAS,
  15th Student's workshop on electromagnetic interactions, Bosen, Sept. 6-11, 1998, Germany

- F. Ronchetti,
  Deuteron photodisintegration at high energy at TJNAF,
  15th Student's workshop on electromagnetic interactions, Bosen, Sept. 6-11, 1998, Germany.

- N.Bianchi,
  Absorption strenght in photon induced reactions,
  8th International Conference on the Structure of Barions,Bonn, Germany, Sept.22-26,1998 (BARYONS'98)

- M. Battaglieri for the CLAS collaboration,
  Preliminary angular distribution in π^0 electroproduction in the Δ region at Q^2 higher then 0.5 GeV^2/c^2,
  8th International Conference on the Structure of Baryons,Bonn, Germany, Sept. 22-26, 1998. (BARYONS'98)

- N.Bianchi,
  Nuclear medium effects in photoabsorption measurement,
  37th International Winter Meeting on Nuclear Physics, Bormio, Italy, Jan. 25-30, 1999.

- R. De Vita,
  The target stick for the EG1 experiment at CEBAF,
  American Physical Society Meeting, Atlanta, USA, April 1999.

- M. Taiuti for the CLAS collaboration,
  First preliminary results from CLAS,
  2nd International Conference on Perspectives in Hadronic Physics,
  Trieste, Italy, May 10-14, 1999.

- M. Ripani,
  Two pion electroproduction with the CLAS detector at TJNAF,
  Uppsala, Sweden, June 10-16,1999 (PANIC'99)

- M. Anghinolfi,
  The polarized target for Hall B at TJNAF,
  Workshop on polarized source and target, Erlangen, Germany, September 1999.

- M. Taiuti,
  The N* program at CLAS,
  16th Student workshop on electromagnetic interactions, Bosen, Sept. 5-10, Germany,1999.

- M. Battaglieri,
  Photoproduction of vector meson at high t,
  Electromagnetic interactions with Nucleons and Nuclei, Probing hadrons and nuclei at higher energies, Santorini, Greece, Oct. 5-10, 1999.

- M. Mirazita,
  Evidence of shadowing effects in nuclear photoadsorption at 1-2 GeV,
  Electromagnetic Interactions with Nucleons and Nuclei, Probing hadrons ad nuclei at higher energies, Santorini, Greece, Oct. 5-10, 1999

- E. De Sanctis,
  Electromagnetic Interactions with Nucleons and Nuclei, Probing hadrons ad nuclei at higher energies, Santorini, Greece, Oct. 5-10, 1999

- M. Taiuti,
  Electromagnetic Interactions with Nucleons and Nuclei, Probing hadrons ad nuclei at higher energies, Santorini, Greece, Oct. 5-10, 1999

- R. De Vita,
  NSTAR 2000, The Physics of the excited nucleus, Newport News, Feb. 2000

- M. Ripani,
  NSTAR 2000, The Physics of the excited nucleus, Newport News, Feb. 2000

- M. Battaglieri,
  Hadronic Physics with photon beams, Adelaide, Feb. 2000

- M. Battaglieri,
  Int. Conf. On Quark and Nuclear Physics, Adelaide, Feb. 2000

- E. De Sanctis,
  NuPECC meeting, Lisbona, March 1999

- M. Taiuti,
  Baryon Excitations, Julich, May 2000

- R. De Vita,
  Symposium on the Gerasimov-Drell-Hearn Sum Rule and the nucleon spin structure in the resonance region, Mainz June, 2000

- M. Anghinolfi,
  Symposium on the Gerasimov-Drell-Hearn Sum Rule and the nucleon spin structure in the resonance region, Mainz June, 2000

- M. Ripani,
  9th Inter. Conf. On Nuclear Reaction Mechanisms, June 2000

- M. Battaglieri,
  Clustering Phenomena in Nuclear Physics, S. Pietroburgo, June 2000

- M. Taiuti,
  LXXXVI Congresso Nazionale SIF, Palermo, Oct. 2000

- M. Taiuti,
  VIII Convegno su Problemi di Fisica Nucleare Teorica, Cortona, Ott. 2000

- M. Ripani,
  Workshop on Relativistic Dynamics and Hadron Structure, Trento, Nov. 2000

- E. De Sanctis , N. Bianchi e V. Muccifora, su Nucl. Phys. A666&667, (2000)
  proc. of the Wokshop NUCLEON'99: The Structure of te Nucleon in Frascati, June 7-9, 1991.

- F. Ronchetti
  Deuteron photodisintegration at high energy in the framework of the Quark Gluon String model and the Regge phenomenology
  Roma, Università di Roma III, Dec. 11, 2000
