

BY-NanoERA

(Institutional Development of Applied Nanoelectromagnetics: Belarus in ERA Widening)

S.Bellucci (Resp. INFN), R. Baldini (Tecn.), L. Coderoni (Bors.), G. Giannini (Ass. Ric.), F. Micciulla (Ass. Ric.), I. Sacco (Bors.)

External collaborating Institutions:

Institute of Nuclear Problems of Belarusian State University,
Institut fuer Festkoerperphysik, Technische Universitaet Berlin,
Central Laboratory of Physico-Chemical Mechanics, Bulgarian Academy of Sciences, Sofia,
Institute of Electronic Structure and Laser (IESL), Heraklion, Crete,
Belarusian Institute of System Analysis and Information Support of Scientific Technical Sphere,
Science & Technology Park “Metolit” at Belarusian National Technical University.

We participate as a partner (the INFN unit) to the Coordination and support actions of the FP7-INCO-2010-6. BY-NanoERA has a duration of 36 months and started its activities on 1st January 2011. The consortium binds together four Universities, two Research Organizations and an industry (Science & Technology Park).

Project objectives:

The main objectives of the project BY-NanoERA are to prove necessity and promising capability of nanoelectromagnetics in the core objective of FP7 Theme 4 'Nanosciences,Nanotechnologies, Materials and new Production Technologies – NMP' and to develop a concept of nanoelectromagnetics as a perspective direction in NMP. We also wish to establish network with research centers in Member States or Associated Countries in the field of applied nanoelectromagnetics aimed with the progress in solving concrete scientific problems and submission of joint research projects, as well as to organize a set of workshops and seminars on nanoelectromagnetics.
