

## CONFERENCES, WORKSHOPS and MEETINGS AT LNF

### WEIRD THEORETICAL IDEAS

18 – 20 December, 2017

### TRANSVERSITY 2017

The fifth International workshop on Transverse polarizAtion phenomena in hard processes  
11-15 December, 2017

Workshop Quantum Foundations: New frontiers in testing quantum mechanics from  
underground to the space Frascati (Italy)

29 November -1 December, 2017

Autumn Institute II: Testing the Standard Model at low and high energies

28/11/2017

10<sup>th</sup> LHCb Computing Workshop

20 - 24 November, 2017

BESIII Italian Winter Meeting 2017

21 - 22 November, 2017

Autumn Institute: Precision physics to achieve the LHC accuracy goals

17 November, 2017

Nanoscience and Nanotechnology 2017

16 - 20 October, 2017

Strange and non-strange mesons induced processes studies at DAFNE, J-PARC and RIKEN:  
present and future

10 – 11 July, 2017

Workshop Quantum Foundations: The physics of “What happens” and the measurement  
problem

24 - 26 May, 2017

Hot QCD Matters

17 -19 May, 2017

MUSE General Meeting

10 - 12 May, 2017

Workshop on Axion Physics and Experiments

27-28 March, 2017

AARP: OPTICS – Outlook and Proposal fro Technological & Innovative Cooperation  
Strategies

1 March, 2017

Winter Institute: Selected Topics on the Phenomenology of Present and Future Colliders

1 February, 2017
