

Mathematics and Physics at the crossroads

INdAM research period

June 6 - July 29

August 22 - September 30, 2016

INFN - Laboratori Nazionali di Frascati

<http://agenda.infn.it/event/MPC2016>

The aim of the program is to gather leading international experts and young talented researchers in Mathematics and Theoretical Physics in order to stimulate interactions among these disciplines. Besides the three topical workshops and the summer school, the format includes minicourses, seminars and informal discussions.

Gauge Fields and Strings

Istituto Nazionale di Alta Matematica

Francesco Severi

June 13 - 15, 2016

Operator Algebras and Quantum Field Theory

INFN - LNF, Frascati, Italy

June 27 - 29, 2016

Condensed Matter and Critical Phenomena

INFN - LNF, Frascati, Italy

September 5 - 7, 2016

EMS-IAMP Summer School in Mathematical Physics:

Universality, Scaling Limits and Effective Theories

Istituto Nazionale di Alta Matematica

Francesco Saveri

July 11 - 15, 2016

Organizers

Massimo Bianchi (Physics, Univ. Tor Vergata)
Alberto De Sole (Mathematics, Univ. Tor Vergata)
Alessandro Giuliani (Mathematics, Univ. Roma Tre)
Maria Paola Lombardo (INFN - LNF)
Roberto Longo (Mathematics, Univ. Tor Vergata)
Vieri Mastropietro (Mathematics, Univ. Milano)
Gerardo Morsella (Mathematics, Univ. Tor Vergata)
Alessandro Pizzo (Mathematics, Univ. Tor Vergata)
