A COLLECTION OF DATA ON RESONANCES IN HEAVY-ION REACTIONS

A COLLECTION OF DATA ON RESONANCES IN HEAVY-ION REACTIONS

Ugo Abbondanno

Dipartimento di Fisica dell'Università di Trieste

and

Istituto Nazionale di Fisica Nucleare, Sezione di Trieste

A collection of experimental data on heavy-ion resonances (updated to December 1991) is presented. The compilation is limited to resonances for which both the center of mass wiz. excitation energy and spin have been determined. The compilation contains nineteen groups of data (Tables 1 to 19), in which the center-of-mass energies E_{cm} , the excitation energies E_x and the angular momenta L of resonances are reported for each nuclear system in which resonant behaviour has been observed. Each Table is accompanied by the corresponding reference list.

Table 1.
RESONANCES IN THE $^{12}\text{C}+^{12}\text{C}$ SYSTEM
